STORYTELLING

The current administration is at war with our country. The radical Democrats are trying to erase our freedoms and way of life! You have to prepare for what could happen next...

- It took Barack Obama seven years to go from "A president is not above the law" to "We're not just going to be waiting for legislation ... I've got a pen and I've got a phone." Joe Biden did it in just three months.
- In October 2020, candidate Biden explained, "You can't legislate by executive order unless you're a dictator." Three months later, President Biden issued 29 executive actions within three days of taking office.
- As of April 29, Biden had issued 41 executive orders, more than twice the number issued by either Obama (19) or Bush (11), and two-thirds more than Trump (25). Counting other unilateral executive actions, but excluding mostly symbolic actions like, say, declaring a National Agriculture Day, Biden issued 64 compared to 54, 41, and 20 for Trump, Obama, and Bush, respectively.

- The national debt is at 31 trillion that is each person in this country is in debt to the tune of \$100,000 dollars. If you think the US dollar and banking industry cannot sustain any more pressure, you are not alone. CNBC on April 8, 2022 has run a story on this subject and the leading experts are warning of this potential event.
- With the ever growing potential that the US dollar will drop due to the enormous debt this country has accumulated, The trade policies, from this current administration, and the rapid printing of money that is not backed by gold anymore, your only defense from waking up one day and learning your money is worth nothing is to insure your future with Rino Digital Currency.
- The Rino Digital Currency is on the blockchain, and cannot be touched. The very limited number of minted coins will ensure the value stays high and available for use worldwide. Timing could not be better as this is a limited offering for select patriots that have been invited by invitation only.

## CONCLUSION

"There's only one difference between slaughter and laughter, make sure you're on the laughing side." — Ana Salote, Oy Yew

#### In Life timing is everything.

Bill Gates, was at the right time when he started developing software, Steve Jobs recognized the world needed personal computers, Satoshi Nakamoto the founder and developer of Bitcoin, Sam Bankman-Fried recognized the need to build the crypto exchange FTX and now, "YOU" have an opportunity to be part of the political revolution, here in the United States, the next couple of years will be one of the most fought, AND EXPENSIVE campaigns between the Democrats, Republicans and yes, the RINO term has beeen gainaing traction, and with the upcoming elections, it's set to explode in popularity - in crypto terms, this means RINO coin will ride the wave and gain tremendous value while doing so.

Opportunity is within your reach, the question is will you take it or be one of the people that say a few years later, I had the chance, if I had only, or what would life have been if I had spent a thousand dollars on some Rino Coin?

"There's only one difference between slaughter and laughter, make sure you're on the laughing side."
